Chief operating officer. He supervises the employees and passes constitutional ideas. He also is the judge in courthouse cases such as demotion and firing. Harrison got CEO. Chief executive officer. If there are two co owners the CCO and CEO positions are combined and the COO gets the role of the CFO. The power of control over the wildcash was transferred from the CCO to the CFO.

April 6th 2020

Edgenuity fought back and added a new tech course. This increased the number of classes for most students from 4 to 5 and the class also used useless material and was extra long to make it less enjoyable.
